

Let everything that breathes  
**praise the LORD!** Psalm 150:6

## The Dignity and Sanctity of Every Human Life

by: Nile Abele

Sanctity of Human Life Sunday (SOHLS) is celebrated each year in many “pro-life” churches throughout the country. This year it is celebrated on January 21.

SOHLS highlights the dignity and sanctity of every human life. Jesus’ message was clear – “God so loved the world” and as His disciples, we must “love on another”. The dignity and love that we offer to those that cross our path says much about who we really are.

Our culture is all about self. But as a Christian, we must be selfless as we demonstrate our concern for our fellowman, especially the most vulnerable – that precious life in the womb!

So as we celebrate SOHLS this year, let us think of genuine ways that we can express our belief in the dignity and sanctity of every human life. Every day, at Stillwater Life Services, we have the opportunity to convey in practical ways this belief to the moms and the precious baby they carry. Come join us in this marvelous celebration of LIFE!

## Are You the One?

By: Lori Hatfield

At Stillwater Life Services, we realize we are involved in an effort much bigger than ourselves. Each day, we respond and reach out to women in the valley of decisions that will alter their lives forever. Even though the challenges seem overwhelming, we know better. God is never overwhelmed, and He sends the right people into this ministry to take its outreach to new heights. Usually, He sends people one at a time. Each person takes this ministry one step closer to fulfilling the mission He has for us.

Is that next person you? If you have ever sensed the tug that feels like a desire to help women as they look for hope, then give [Lori Hatfield](#) a call at [405-624-3332](tel:405-624-3332). We have clients that need other mothers to walk beside them through an unexpected pregnancy. They need women to help them transition into mothers. They may even need a friend to help them. Your support can change lives for generations to come, one person at a time.

### Cleaning Volunteer(s) Needed

Do you have an extra hour each week? Or every other week? Is your church group looking for ways to volunteer in the community?

Stillwater Life Services could use your help keeping our Center clean! We need one or more volunteers to do light weekly cleaning. Call [405-624-3332](tel:405-624-3332) to volunteer today.

### Stillwater Life Services Annual Banquet

E3 (Empower, Encourage, Embrace) is the theme for Stillwater Life Services' Annual Fundraising Banquet on March 6th. This will be a wonderful evening, where we will hear a powerful message from our keynote speaker, Dr. William Lile.

Dr. Lile is the founder of ProLifeDoc.org. Dr. Lile's mission is to use the visual technology of modern obstetrics to reveal the personhood of unborn babies threatened by abortion. He is an obstetrics & gynecology doctor who practices in Pensacola, FL. Dr. James Dobson said that, "Dr. Bill Lile is the best friend that the unborn could ever have."

We will also hear a life-changing story from one of our clients, and exciting plans to see our ministry vision continue. Plus, dinner and fellowship! We encourage you to attend this important event.

Tuesday, March 6, 2018  
6-8PM
